Led Frames

Introducing our exclusive LED Light Frames, the ultimate advertising solution. These high-powered frames seamlessly blend aesthetics with promotion, illuminating your brand's presence whether indoors or outdoors. They are fully customizable to suit any requirement and come in a range of vibrant powder-coated colours (with an additional charge).

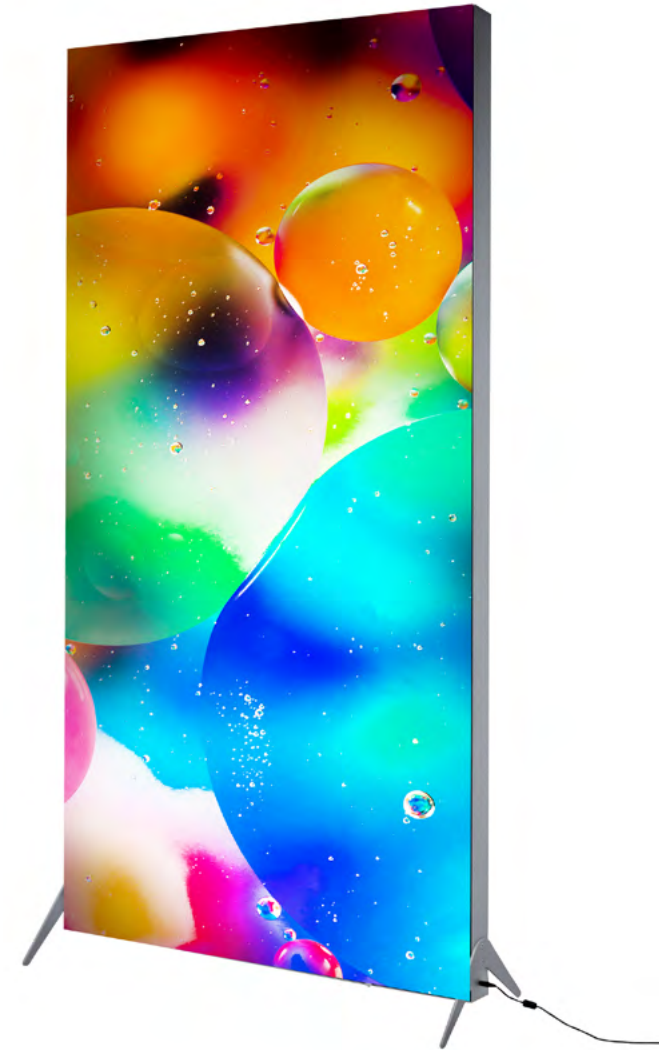

For the best results, we highly recommend using Lumitex I90 material in our LED Frames. Lumitex I90 is a premium fabric that enhances light diffusion, delivers vibrant colours, and creates a seamless appearance for a visually stunning and attention-grabbing display. We also provide outdoor LED Frame solutions on demand.

Smart Frame

Our Smart Frame system offers a wide range of configuration options, perfectly adaptable to the ever-changing demands of various facilities and public spaces.

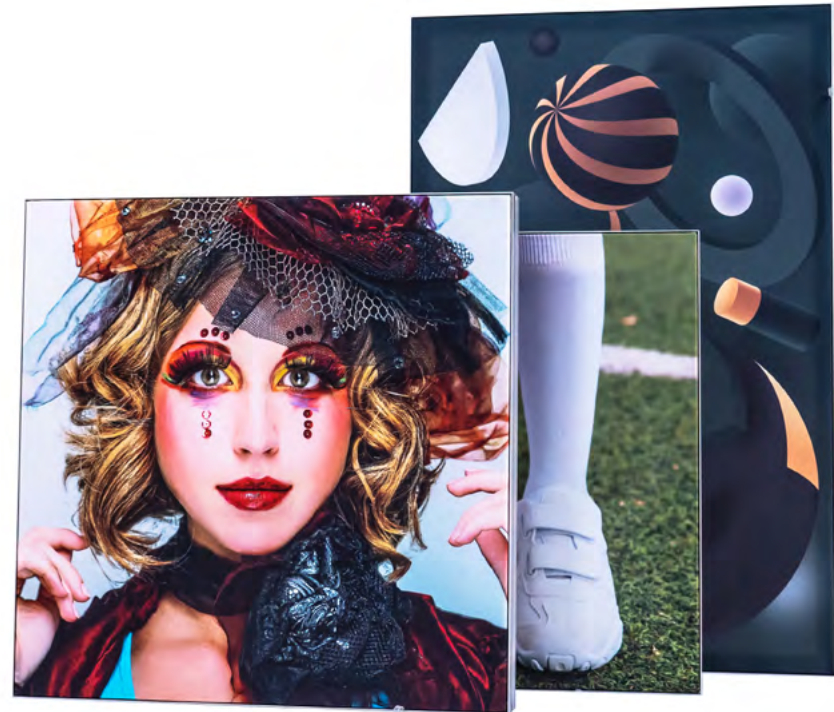

The user-friendly assembly system allows for quick and effortless graphic replacement, ensuring a seamless, stress-free experience. Setup and disassembly are simple, while the compact design enables convenient transport and storage.

With our extensive experience in frame production, you can confidently rely on the durability and reliability of our products.

AVAILABLE SIZES:

Smartframe 27 mm
single-sided with basic elements

SmartFrame 44 mm
double-sided with basic elements

A-Frame Conversion

With dedicated accessories, your Smart Frame can easily be transformed into a free-standing A-frame – ideal for temporary displays and presentations.

Double-Sided 44mm

Maximise your visibility with our double-sided 44 mm frame, designed to double the exposure of your content and messaging.

Extra Powder Painting

We offer custom powder coating in a wide range of RAL colours – choose any RAL tone to match your brand or interior.

Your Smart Frame Style

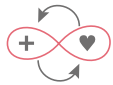

You have the choice of a sleek closed profile or an open design for your frame. With the open profile and additional accessories, you can either hang the frame or install additional feet.

Foldable Smart Frame

Mega Plus is a compact and modern SEG (Silicone Edge Graphics) display system, combining lightweight construction, tool-free setup, and a clean, professional appearance. Available in two practical sizes – 100 x 200 cm and 150 x 200 cm – with integrated feet and packed in a padded transport bag.

This system is perfect for trade shows, events, presentations, and retail spaces. It can be set up and packed down in just minutes, making it highly mobile and user-friendly.

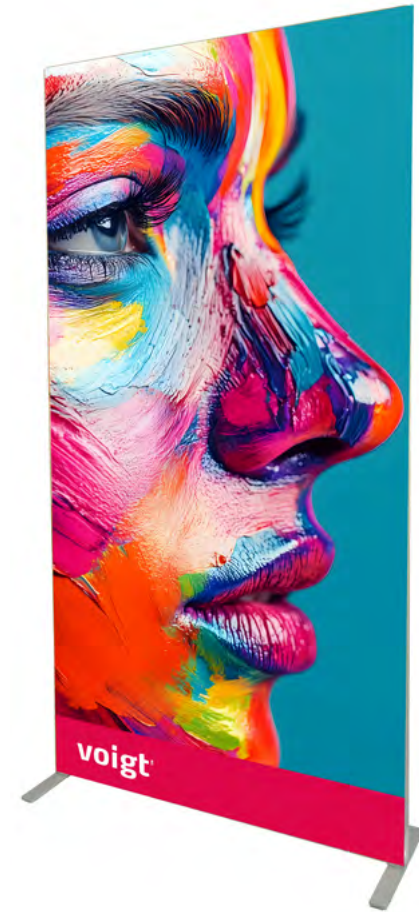

Set includes:

- foldable frame
- padded transport bag
- two prints on Decotex 205.

Available sizes:

- **Mega Plus 100x200 cm**
- **Mega Plus 150x200 cm**

* Feet and connectors are available as optional accessories — their selection depends on the specific project or arrangement.

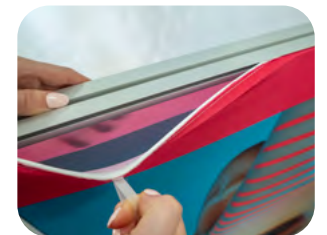

SEG Graphic

The silicone edge ensures a perfect, wrinkle-free fit, and sublimation printing delivers sharp, vibrant visuals. Durable and precise — ideal for premium branding.

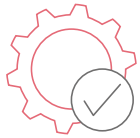

Single or Double-Sided Graphics

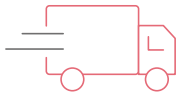

Compatible with single- and double-sided prints. Recommended fabrics: Decotex 205 for standard use and Decotex 260/Blockout for full opacity.

High Quality
Artist Canvas

UV Light
Resistant

Stretched By Hand
For A Perfect
Finish

Wooden Frame

Transform your vision into a stunning canvas print stretched on a high-quality wooden frame.

Perfect for elevating the look of your home, office, or commercial space, these prints bring depth and sophistication to any interior.

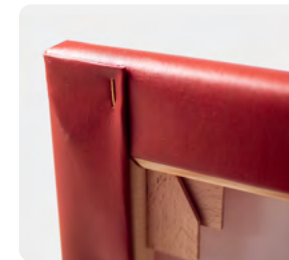

Each canvas is meticulously printed with premium inks to ensure vibrant colors and sharp details, then stretched by hand over a durable wooden frame for a flawless finish. Our skilled team takes great care to achieve the perfect tension, so your canvas stays smooth and wrinkle-free over time.

For lasting beauty, the prints are protected with a semi-gloss finish that enhances the colors while guarding against fading and UV light damage. The result is a timeless piece of art ready to display and admire for years to come.

Perfectly Stretched Canvas

Expertly hand-stretched to ensure a smooth, professional look.

Seamless Corner Finish

Neat and secure folds for a clean, gallery-style appearance.

Solid Wooden Frame

Crafted from durable, premium wood for stability and lasting quality.

Table Cloth

Our Table Cloth is crafted from high-quality polyester, known for its exceptional durability, wrinkle resistance, and long-lasting performance. The material naturally repels dirt, preventing it from penetrating the fabric structure — simply rinse lightly with water to keep it clean. A special protective coating further enhances practicality, making maintenance effortless and ensuring a fresh look even with frequent use.

Perfect for events, banquets, fairs, and conferences, our tablecloth is also ideal for restaurants, hotels, and catering professionals who value durability and easy care.

Available in two versions: white (natural material colour) or custom-printed, with vivid, long-lasting graphics achieved through digital dye sublimation.

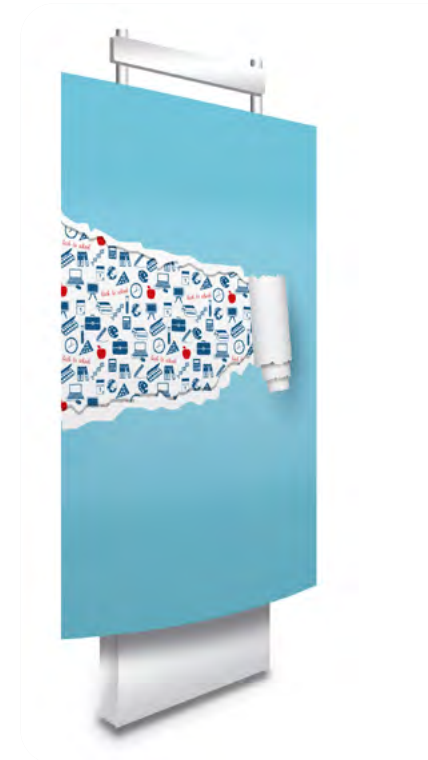

Alarm Cover

Our Alarm Covers are designed as easy pull-on sleeves that slide smoothly over alarm posts for a secure, snug fit.

Crafted from high-quality materials — with Ecofilt 150 as the most popular choice — they ensure excellent durability and reliability.

Perfect for marketing and promotional campaigns, these covers allow for quick changes and flexible display options, adapting effortlessly to your evolving needs.

Do you need any advice?
Contact with our Customer Service!

Pallet Cover

The Pallet Cover is designed to give your pallets a remarkable transformation, turning typically unattractive pallets into eye-catching displays for your promotions or any design.

It's the ideal solution for creating an attractive showcase for your products, highlighting promotions, or simply displaying your logo. Each cover is custom-made to fit the size and quantity of pallets you require, ensuring a tailored and appealing solution.

We make covers for both standard and non-standard sizes.

Pallet Wrap

Leave your mark with our customizable pallet wrap — premium-quality material available on convenient rolls. Personalize it with your logo only on a chosen background colour, or opt for full-surface printing for maximum visual impact. Our printing technology ensures vivid, long-lasting colours visible from both sides of the wrap, enhancing brand recognition.

Strong Velcro fastening provides secure, easy, and reusable attachment, keeping the wrap in place during transport or storage.

Perfect for labeling euro pallets, this wrap combines practicality with a professional look, boosting brand visibility throughout the entire supply chain. Easy to transport and effortless to apply whenever needed.

Advertising Solution

Elevation Banner Standard	38
Inflatable Products	39

Do you need any advice?
Contact with our Customer Service!

Elevation Banner Standard

This system consists of an upper aluminium H-profile securely affixed to the facade or wall. You'll find a hanging aluminium H-profile, similar to the one above, is loosely suspended. We install tightening brackets on this lower profile, which, after mounting the banner, stretches it taut vertically. Additionally, we place a corner bracket at each corner to ensure horizontal tension for the banner. When it comes to replacing the banner, often requires using a lift or ladder, depending on the banner's size and location.

Conector For Keder Profile

If the system is wider than 6 meters (the max length of our alu keder profiles) then you have to expand by adding a connector.

Bracket

Bracket for horizontal and bracket for vertical stretching of the banner.
