

GEO MESH 230

AN ENVIRONMENTAL FRIENDLY
ALTERNATIVE TO PVC MESH

voigt[™]

GEO MESH 230

as environmental friendly alternative for PVC Mesh used in the production of advertising materials dedicated for outdoor use.

Geo Mesh 230 is characterized by high air permeability, tear resistance and high durability - stronger than PVC mesh. Geo Mesh is suitable for campaigns outdoor which is shorter than 4-6 months. The applied printing technology allows the use of a wide range of colors without loss of print quality.

Banners made of Geo Mesh material are easy to install, and the print technology itself is environmentally friendly. For additional information please contact with our customer service.

Additional information:
